AFRICA'S WATER DEVELOPMENT NEEDS

It was a privilege to attend a recent workshop in Yaoundé, North Africa on Sustainable Water Resources which had been organized by the African Development Bank (ADB) and the African Development Bank (ICOLD) (see also the report in one of the upcoming general membership meetings in the summer in the East African Department of Water Affairs and Energy and the background to membership in a programme of the ICOLD Regional Office in Yaoundé). The workshop was organized by the African Development Bank (ADB) and the African Development Bank (ICOLD) (see also the report in one of the upcoming general membership meetings in the summer in the East African Department of Water Affairs and Energy and the background to membership in a programme of the ICOLD Regional Office in Yaoundé). Vice President Paul Biya

- In spite of the abundant water resources in Africa, the continent still faces the development of the water sector biggest deficit. Countries such as Ethiopia, the Sahelian countries, and others are still facing serious water shortages.
- Africa will face serious water shortages and the continent will have to find ways to overcome them. Africa will face serious water shortages and the continent will have to find ways to overcome them. Africa will face serious water shortages and the continent will have to find ways to overcome them.
- Africa will face serious water shortages and the continent will have to find ways to overcome them. Africa will face serious water shortages and the continent will have to find ways to overcome them.
- Africa will face serious water shortages and the continent will have to find ways to overcome them. Africa will face serious water shortages and the continent will have to find ways to overcome them.

ICOLD is an organization of member countries in Africa, Asia, Latin America and the Caribbean. It is a part of the African Development Bank (ADB) and the African Development Bank (ICOLD) (see also the report in one of the upcoming general membership meetings in the summer in the East African Department of Water Affairs and Energy and the background to membership in a programme of the ICOLD Regional Office in Yaoundé).
